

2025 REPORT

GigaStar

LETTER

Dear investors,

This past year, GigaStar crossed meaningful milestones. We have raised over \$6.96 million for Creators across 38+ completed offerings, distributed more than \$1.2 million in YouTube AdSense revenue to Investors, and grown to ~30K Investor accounts.

Our three-platform ecosystem is taking shape. GigaStar Market continues to power primary offerings. GigaStar Portfolio connects Investors to their holdings and distributions. GigaStar Trading, our SEC and FINRA-approved secondary market ATS, will give Investors a liquidity pathway for their Channel Revenue Tokens for the first time. We look forward to inviting Investors to open their GigaStar Trading accounts soon for the live trading that will follow.

The Creator Economy is at an inflection point. Goldman Sachs projects the market will reach \$480 billion by 2027, and regulatory tailwinds are opening access to institutional capital at a scale this asset class has never seen. GigaStar is building

the regulated infrastructure to meet that moment.

Thank you for being part of this.

We need your help!

Our investors play a meaningful role in supporting our growth, and we encourage them to stay actively engaged with the company. This includes keeping up to date with our latest announcements on WeFunder and participating in offerings on GigaStar Market. We also value when investors support us on social media—engaging with our content helps build broader awareness within their networks.

Sincerely,

Hazem Dawani

Chief Executive Officer

Mohammed Asfour

Chief Operating Officer

Ken Yong

Director of Finance

How did we do this year?

REPORT CARD

😊 The Good

We successfully scaled our team with high-caliber, industry-leading talent, strengthening our expertise across key functions.

Raised \$4M+ in a strong Series A via Wefunder and private investors, reinforcing confidence in our vision and fueling growth.

Secured key regulatory approvals, including SEC approval, enabling us to move forward with launching our secondary market.

⊖ The Bad

We experienced regulatory-related delays that pushed back the launch of our secondary market.

 The pace of onboarding new Creators was lower than expected.

We've had many requests from our 29,000 investors on our platform for new features, and we were not able to achieve them all.
