NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has incurred recurring losses and has an accumulated deficit of \$2,839,261.62 as of December 31, 2025. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management plans to address these conditions through additional capital raising. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and expenses. Actual results may differ from these estimates.

Fair Value of Financial Instruments

The Company follows the fair value hierarchy established by ASC 820. The carrying amounts of financial instruments, including cash and cash equivalents, approximate fair value due to their short-term nature.

Cash and Cash Equivalents

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash balances may include funds held in operating accounts and treasury sweep accounts that are readily available on demand.

Revenue Recognition

The Company did not generate operating revenue during the years ended December 31, 2024 and 2025. Any income recognized during these periods consisted of non-operating income. The Company will recognize revenue in accordance with ASC 606 when control of promised goods or services is transferred to customers.

Stockholders' Equity

Common and preferred stock are stated at a par value of \$0.0001 per share. Proceeds received in excess of par value are recorded in additional paid-in capital.

Stock-Based Compensation

The Company did not issue stock options, warrants, or other equity-based awards during 2024 or 2025. Accordingly, no stock-based compensation expense was recognized.

Income Taxes

The Company has incurred net operating losses since inception. A full valuation allowance has been recorded against deferred tax assets, as management believes it is more likely than not that such assets will not be realized.

Concentration of Credit Risk

The Company maintains cash balances with financial institutions in the United States, which may exceed federally insured limits. The Company has not experienced any losses related to these balances.
